REASONS FOR ALLOWANCE

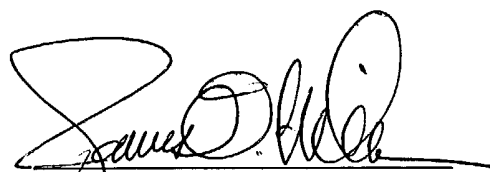

The following is an examiner's statement of reasons for allowance:

The application is allowable for the reasons set forth on pages 6 and 8 of the decision of the Board of Patent Appeals and Interferences, which is hereby incorporated by reference. As noted therein, and as argued on pages 5 and 10 of Appellant's brief, the claimed invention requires a chemical composition consisting essentially of an acarbose which must be mixed with a sustained release matrix whereas the closest prior art set forth an acarbose composition which is coated with an extended release coating which does not teach or suggest the claimed invention. The amendment to the claimed method of treating a patient to stimulate weight loss by amending the claim to recite administration of a "sustained release acarbose formulation" to the patient put the application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
